

## Company Description

Amplia Wealth is an independent wealth management company with offices in Switzerland and Finland, serving high-net-worth individuals and institutions. Founded in Switzerland in 2014, the company operates from Zürich, Helsinki, Turku, and Tampere with a dedicated, multilingual team.

Amplia combines the tradition and expertise of the world's leading international wealth management centre with locally tailored services. Regulated by the Swiss Financial Market Supervisory Authority (FINMA) and the Finnish Financial Supervisory Authority (FIN-FSA), Amplia delivers reliability and bespoke private banking solutions. As a growing organization, Amplia is seeking talented professionals to join its team.

This role is specifically for Amplia Wealth Finland Oy.

## Role Description

We aim to strengthen our Portfolio management team and are looking for a Portfolio Manager.

As a Portfolio manager your primary responsibilities will include internal trade flow execution, trade idea generation across asset classes (focus area equities) for Amplia Investment Committee, Portfolio Management, and internal sales teams. You will also produce various analyses and reports, primarily for internal use but occasionally also for external clients. The candidate is expected to be able to perform as a designated equity portfolio manager for Amplia equity strategies and/or products.

You will work in close collaboration with seasoned professionals as part of a Portfolio management team while being able to contribute independently from day one, particularly in equity portfolio management solutions.

This role offers a unique opportunity to deepen your expertise in a dynamic international environment while contributing meaningfully to a team committed to achieving significant results.

At Amplia we strive to create an environment strong enough to make this workplace your last.

## Qualifications

What we are looking for:

- Minimum 5 years of experience working as an equity analyst, trader, portfolio management or similar relevant role.
- Strong expertise in equities, ETFs, trading and/or equity portfolio management
- Excellent analytical and decision-making skills
- Ability to work autonomously and as part of a team
- Strong communication and collaboration abilities
- Proven ability to develop and implement investment strategies
- Entrepreneurial spirit
- Fluency in English & Finnish is mandatory. Swedish is considered an advantage

## Contact details

Interested? We kindly ask applicants to submit their CV, a short cover letter & salary request to email shown below.
